PITZONKA'S CUT-FLOWER MIXTURE • Developed from the Famous Swiss Giant Pansies

PITZONKA'S

Pansy Pointers

1. Have a loamy, organic soil for planting.
2. Have your Pansy bed elevated at least 3 inches.
3. Unpack the Pansies immediately upon receipt of shipment.
4. Water plants after planting; then water only when soil is dry.
5. Pinch the fading flowers to stimulate flower growth.
6. In warm weather, be on the lookout for insects and disease.

STUDY THESE PICTURES

These pictures, though much reduced in size, show the difference between our Large and Regular size Pansy plants.

SIMPLE SUGGESTIONS FOR GROWING PANSIES

1. Choose a well-drained, sunny location (part shade is no obstacle).
2. Any good garden soil will do. Soil must be rich and can be made so by mixing plenty of well-rotted cow manure, sheep manure or rotted compost and an application of commercial fertilizer with an analysis of 5-10-5 through the soil. If possible, allow the bed to stand a few days to several weeks before planting.
3. When the plants are received, pulverize the soil to a depth of 6 inches. Set the plants about 6 inches apart, as deep as they were in the nursery. Water well; shade in midday until well rooted.
4. After the ground is frozen hard, mulch lightly with hay or straw.
5. A requirement is to have the soil rich. Give another application of commercial fertilizer, according to directions, when growing weather starts in the spring.

FALL 1960 - SPRING 1961

Enormous Flowers, Rare Colors, in PITZONKA'S CUT-FLOWER MIXTURE

SOLD EXCLUSIVELY BY PITZONKA

Our Cut-Flower Mixture is the pride of millions of Pansy growers. It originated in Switzerland.

We are very enthusiastic about the huge blooms. Many of them, with rich velvety color tones, reach a diameter of 3 to 4 inches. The colors in this mixture are deep and vivid, ranging from primrose-yellow through a mellow maroon, including burgundy, ultramarine-blue, pale pink and carmine-rose. Each flower characteristically exhibits a large center blotch. The foliage is vigorous in growth, of a deep forest-green color.

Every garden deserves the best. Pitzonka's Cut-Flower Mixture is the first choice of discriminating gardeners.

**Regular size plants, \$4.50 per 100, \$35.00 per 1000.
Large size plants, \$3.50 for 50, \$6.00 per 100, \$47.00 per 1000.
250 plants or more of one size at the 1000 rate.**

Butterfly Hybrids

You'll find this the grandest mixture of pastel Pansies you ever saw. Each ruffly bloom looks as if Mother Nature had artistically hand-painted it to create a wonderful galaxy of lovely colors ranging from pink, apricot and coral through to orchid and lavender. Southern gardeners have found that Butterfly Hybrids are adaptable to warmer weather. They flower more prolifically over a longer time.

Plants, \$2.50 for 25, \$4.00 for 50, \$6.50 per 100

Color Carnival

One of the few American hybrid Pansy mixtures. Large blooms are borne on healthy stems that clearly show the hybrid vigor. This mixture includes many of those choice red and wine tones that are so hard to find. Large center blotches framed with gorgeous tones set Color Carnival into a class shared by only a few mixtures. The plants seem more heat resistant than similar Swiss Giant mixtures.

PITZONKA'S PERENNIALS . . .

Can Give You That All-Season Garden

Group plantings of perennials will greatly dress up your garden of bulbs and shrubs. Perennials will make a picture of living color, set off by foliage of interesting textures and tones. This picture will be prolonged if a good selection is chosen to produce a succession of bloom from early spring until the icy fingers of Jack Frost are felt in the fall.

All perennials are sold 1 or 2 plants of one variety at the each rate, 3 to 5 of one variety at the 3 rate, 6 to 24 of one variety at the 10 rate, 25 or more of one variety at the 100 rate. Add 15% extra for orders to be sent prepaid.

AQUILEGIA, McKana's Giant Hybrids

ACHILLEA Taggetea. A splendid plant for hot, dry, sunny places. Does well in the most difficult soils.
